## Skills

---

**Tools:** React, JavaScript, HTML, CSS/SCSS, Redux, Next.js, Material UI

**Services:** GitHub, Sanity CMS, Vercel, Figma

## Work Experience

---

**Web Developer** — Freelance

2021 - Present

- Develop responsive and accessible static websites for local small businesses utilizing React and Next.js.
- Construct mobile-first mockups via Figma utilizing contemporary designs tailored to the client's vision.
- Maintain open communication with clients regarding project direction, progress, and feedback.

**Project Manager** — ProteoGenex, Inc.

2018 - 2022

- Led a team of research assistants from initial requests through completion surpassing annual sales.
- Maintained an extensive database and inventory of temperature sensitive biospecimens for research.
- Prepared and ensured quality of biological samples for shipment to researchers at large institutions.

## Projects

---

**Short Form Video Gallery**

<https://vid-gallery.vercel.app/>

- React video gallery application with scroll navigation between fullscreen videos.
- Implemented custom routing with react-router to enable sharable deep links to videos.
- Design inspired by popular social media user interfaces and implemented using SCSS modules.

**Local Business Landing Page**

<https://mt-auto.vercel.app/>

- Developed a static business landing page for a local family-owned auto repair shop using Next.js.
- Handle maintenance requests and content updates from the client.
- Responsive website layout designed with Figma.

**Card Collection Simulator**

<https://zoo-facts.vercel.app/>

- React application that allows users to build a trading card collection with booster packs.
- Dynamically generate playing cards using animal data from a public API.
- Implemented designs from a mobile-first approach to ensure responsiveness.

## Education

---

**University of California, San Diego**

*B.S. Human Biology, Minor Psychology*
